

Completing your firm-wide risk assessment

7 February 2024

Having a firm-wide risk assessment in place is not only the foundation on which all your anti-money laundering processes are built, it's also a legal requirement.

We published updated guidance on preparing and completing your firm-wide risk assessment in September, and also published an updated template which may help you in devising your own assessment.

In this webinar we will:

- Provide tips and information on completing a firm-wide risk assessment
- Work through examples of how you might use/adapt the template we have published

We recommend you have your firm-wide risk assessment with you during the webinar, so you can review it alongside the session.
